

# TAP INTO THE Case Management Body of Knowledge®

- Expert case management knowledge
- 50+ continuing education credits
- 24/7 online access

# Detailed, comprehensive knowledge for case managers

Case managers are at the center of changes in health care delivery, from care transitions to coordination of services. The advent of the medical home, the medical neighborhood and implementation of the Affordable Care Act translate into new opportunities for case managers—and new challenges.

Tap into the knowledge you need for effective case management practice with the Commission's Case Management Body of Knowledge®. With content authored by subject matter experts and peer-reviewed for validity, you'll find the CMBOK® rich in detail and comprehensive in its approach.

Developed over two years by the authority in case management knowledge, the Commission's CMBOK includes authoritative content, as well as post-tests and more than 50 continuing education credits—all pre-approved for continuing education credit by the Commission.

## **CMBOK**

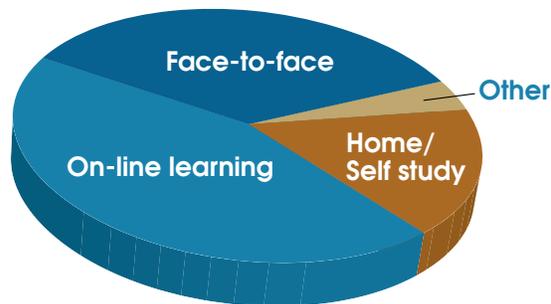

**the information case managers need  
in one easy-to-use, online resource.**

# Advancing professional education

The Commission launched the CMBOK as an online resource for all case managers and health care professionals across all practice settings. Our trend surveys of board-certified case managers consistently identify online learning as the preferred method for continuing education. The Commission's CMBOK makes learning convenient and affordable.

Each of the more than 35,000 board-certified case managers need 80 hours of continuing education every five years to retain the valued Certified Case Manager (CCM<sup>®</sup>) credential. The Commission's CMBOK is a cost-effective, convenient resource for case managers to advance professional education goals.

## CCMs prefer online learning
